

On Wednesday, March 17, 2010, I had the privilege to join a small group from the retired nurses' special assembly to volunteer at an organization in Denver called *Project C.U.R.E.* Project C.U.R.E, which stands for Commission on Urgent Relief and Equipment, was started in 1987. *C.U.R.E.* collects, and distributes medical equipment and supplies to needy areas all over the world. It was truly astounding the amount of medical supplies that are donated to this organization but once they receive the supplies, volunteers must sort, count, and box these needed items so they may be shipped to their destination. The warehouse we volunteered at is just one of many like it and this project is just one of the many ways Project *C.U.R.E.* is working throughout the world. Unfortunately, there are no locations in my location. I wanted to share this with my eChapter colleagues in case there is a project near you that you or your local chapter may wish to become involved with, either through donation or volunteerism. The website is <a href=<http://www.projectcure.org>>www.projectcure.org.

Here are a few photos of the warehouse and our team at work:
